IV: John Deere riding lawn mower, unknown model.
Triple blade mower deck (poss. 42"-46")

INVESTIGATION:

I responded to (b)(3): Exemption 3 for 25 regarding a lawn mower accident involving a two year female child, (b)(6). Upon arrival, Isabella was already being loaded into the back of an ambulance. There were numerous people standing about the scene. Most were clearly traumatized and upset.

As I began to enter the residence, a male subject came out of the front door. His t-shirt had a great deal of blood on the front. He was inconsolable and extremely hysterical. A medic informed me the subject was (b)(6) father. The medic also told me (b)(6) was in no physical or emotional state to operate a motor vehicle.

An unknown neighbor escorted (b)(6) in a car and provided transport for him to Sacred Heart hospital, following the ambulance. I entered the residence and observed a small boy (W/ Kevin Snyder) on his knees in the kitchen, trying to wipe up a large pool of blood on the kitchen floor. When DS McComas arrived on scene, she interviewed Snyder and obtained his statement. For details, refer to her supplemental report.

I went into the back yard and observed the scene. There were two pink child thongs, lying on the grass near the mower. There was also a large amount of scattered debris in the vicinity of the mower. As I got closer, I could discern numerous items of torn fabric and pieces of flesh and bone, the largest piece being what was left of the child's foot. There were too many pieces of flesh and bone to describe in this report. They were all contained within a four to five feet area, near the mower. The one exception was three toes. I found them lying in the grass approximately twenty feet or so behind the mower.

I also observed a silver colored commuter style coffee cup in the molded beverage holder on the right rear fender of the mower. Inside the cup was what appeared to be (by smell) a small amount of coffee with creamer. I did not detect any odor of alcohol inside the cup.

I immediately began to photograph the scene. As I was taking photos, a firefighter started to pick up the child's foot. I asked if he needed to get the foot to the hospital. He said no, he just

wanted to clean the site up. I requested he leave everything intact for me to process in the event the situation became a criminal act.

After I processed the scene, DS McComas and I cleared the lawn of all previously mentioned items. We also hosed off the patio floor and children's toys that had blood on them. The kitchen floor was wiped up and the lawn mower was cleaned off. We then secured the residence by locking the front door.

Prior to leaving, I called Sacred Heart Hospital in an effort to determine how best to dispose of the human remains I had in my possession. I was informed by a nurse in the emergency room that they were now requesting the remains be transported to the emergency room, code three. I responded to the emergency room, code three and turned the items over to a nurse, who was waiting for my arrival at the door.

STATEMENTS:

According to DS Olsen, C/ Norton was too distraught for interviewing purposes. DS McComas obtained statements from children at the scene, refer to her report for further details.
